## SUMMARY

---

Highly motivated, self-starting web developer seeking to launch a career building web applications. Demonstrated experience working in a team setting in addition to possessing a strong attention to detail. Passionate about growing skills in a professional setting and furthering knowledge in web development.

## SKILLS

---

JavaScript  
HTML, CSS  
Figma

React  
Git  
Adobe Suite

npm  
Windows, macOS  
Responsive Design

## PROJECTS

---

### Portfolio Website

[oceanabernathy.com](http://oceanabernathy.com)

- Developed using React as a way to provide links to projects I've created
- Created a custom slider component to showcase projects
- Implemented a dark/light theme toggle

### Fampicks

[oceanabernathy.com/fampicks](http://oceanabernathy.com/fampicks)

- Collaborated with another developer to create a website for a family SEC football picks pool
- Developed all HTML & CSS

### Cybersafe

[oceanabernathy.com/cyber](http://oceanabernathy.com/cyber)

- Learned how to take a mock up and develop it.
- Adapted the desktop mock up for mobile responsiveness.

### DEVour Web Design

[oceanabernathy.com/devourwebdesign](http://oceanabernathy.com/devourwebdesign)

- Product landing page created while working through the Responsive Web Design Certification on freeCodeCamp.
